Combining all of today's most popular flash drive features, Memorex's newest TravelDrive™ USB flash drive is not just a flash drive - it's a sport utility drive. With a capless design and distinctive form, Memorex has updated the TravelDrive for 2007 and offers the drive in a range of "off-road inspired" colors.

A black, soft-touch material provides a protective outer shell that allows for easy gripping. The drive features a reinforced lanyard hook and a wrap-around blue LED indicator lamp that further distinguish this portable storage device.

The TravelDrive 2007 model also features "Enhanced for Ready Boost" capability for those looking to improve their PC performance under the Windows® Vista™ Operating System. As an added safety feature, the TravelDrive comes standard with Portable Vault USB security software from Migo, making this drive as safe as it is stylish.

- Capless design swings out 180 degrees from protective shell
- Soft-touch outer material for easy gripping
- Off-road inspired colors - a different one for each capacity
- Enhanced for ReadyBoost with the Windows Vista Operating System
- Includes Portable Vault security software, featuring password protection and 256 bit encryption (PC only)
- Reinforced lanyard hook
- Wrap-around blue LED indicates drive status
- Cross-platform compatible - works with Windows (including Vista), Mac and Linux
- Includes key ring and quick start guide
